Solve the sums and write the numbers (as a word) in the language you're learning.

| 50 | + |  |  | 100 |
| :---: | :---: | :---: | :---: | :---: |
|  | + | 185 |  | 200 |
| 375 | - |  | $=$ | 300 |
| 40 | $\times$ | 10 | $=$ |  |
|  | $\div$ | 2 |  |  |
|  |  |  |  |  |

Write down the number of legs these critters have in the language you're learning.

1 Dragonfly
4 Beetles

.............................

Translate these Roman numerals into the language you've been learning.
$\square$
v
2

1 Millipede

10 Spiders
 $\cdots$ $\qquad$
D

M
